

Note from the Chair

Dear delegates,

I am pleased to introduce you all to the Security Council of RNR MUN 2018! We, as your Executive Board, assure you that you will have an educational, interactive, and mentally stimulating experience during our sessions. We are honoured to host this event for a group of undoubtedly hardworking and intellectual students.

Model United Nations bring together far-reaching views to solve the world's problems; solutions thought up by humanity's next greatest thinkers. While the United Nations itself has not been able to reach a consensus on many of these pressing matters, what we derive from MUNs is incredibly thought-provoking, inspiring, and plays an integral role in reaching the standards of responsibility and diplomacy that model citizens live up to; values that will soon reform the world as we know it for our own betterment.

We hope to evoke similar ideals, or responses towards MUNning, in you during this two-day event.

We encourage you to contact us via email in the event you have questions or doubts. We look forward to seeing you this August!

Regards,

Tejas Goyal
